UI/UX Team Leader | Design Strategist | Product Innovation Advocate

Positioning Statement

Seeking a role as a UI/UX Manager where I can leverage 20 years of expertise in leading user-centered design teams to deliver intuitive, high-impact digital experiences that drive business value.

Career Profile

Dynamic and results-driven UI/UX professional with two decades of experience managing design teams and steering product innovation. Adept at translating complex user needs into intuitive and accessible interfaces, while aligning design strategies with business objectives. Proven talent for leading cross-functional teams, mentoring designers, and establishing design systems that ensure consistency, scalability, and engagement. Skilled in applying design thinking, usability testing, and data-driven insights to elevate user experiences and drive measurable business outcomes. Career-history includes mobile-first and responsive design, interactive prototyping, and stakeholder collaboration, with a track record of delivering high-quality products on time and within scope.

Core Competencies

- Cross-Functional Product & Engineering Collaboration
- Design Leadership, Team Mentorship & Governance
- AI-Driven UX Design & Intelligent Interface Strategy
- Design System Creation & Scalable UI Architecture
- Agile/Scrum Product Development Collaboration
- Prototyping, Wireframing & Interaction Design
- Mobile-First & Responsive Design Strategy
- Design Thinking & Innovation Workshops
- Usability Testing & Data-Driven Iteration
- UI/UX Strategy & Product Roadmapping
- AI-Enabled Product Experience Design
- User-Centered Design & Research

Technical Proficiencies

Figma, Claude, Adobe XD, Sketch, Adobe Creative Suite (Photoshop, Illustrator), Principle, After Effects, Maze, Optimal Workshop, HTML5, CSS3, Bootstrap, JavaScript, Angular, React (Foundational), Jira, Trello, AI Design Assistants, AI-Driven UX Workflows, AI Content & Image Generation Tools, Design System Development, Interactive Prototyping Tools

Professional Experience

MARIAPPS MARINE SOLUTIONS, MADURAI, INDIA, MARCH 2024 TO PRESENT

UI/UX TEAM LEADER

- Empower and direct a high-performing design team of 35 which involves defining standards, workflows, and mentorship programs to ensure consistent delivery of high-quality user experiences.
- Create and implement user-centered design strategies with a focus on accessibility and cross-platform consistency to result in seamless interfaces across web and mobile applications.
- Partner closely with product managers and developers through iterative workshops to integrate design solutions into development pipelines effectively.
- Responsible for completing usability testing and design reviews by leveraging user feedback to drive iterative improvements and enhance overall product satisfaction.
- Contributed to the development of PALng, an AI-driven maritime digital solutions platform designed to enhance operational efficiency, data analysis, and decision-making across maritime systems.

FOURBENDS PVT LTD, MADURAI, INDIA, MARCH 2015 TO SEPTEMBER 2023

LEAD UI/UX DESIGN ENGINEER

- Championed user-centric design initiatives by translating research insights, usability testing results, and user behavior data into intuitive interface solutions aligned with business goals and improved user engagement.
- Developed and executed end-to-end UI/UX strategies focused on responsive, accessible, and scalable designs that delivered consistent user experiences across web and mobile platforms.
- Crafted high-fidelity prototypes, wireframes, and interactive mock-ups to validate complex workflows and user journeys while supporting smooth collaboration and handoff with engineering teams.
- Promoted design-thinking practices by facilitating design workshops, ideation sessions, and critiques that encouraged innovation and iterative problem-solving within cross-functional teams.
- Headed iterative product improvements through analysis of user feedback, usability testing results, analytics data, and A/B testing to ensure interfaces remained intuitive and aligned with user expectations.
- Ensured design consistency across products by standardizing UI components within scalable design systems and conducting regular design reviews to uphold quality and usability standards.
- Presented complex design concepts and recommendations to stakeholders while balancing user needs, technical feasibility, and business objectives.
- Stayed current with emerging UX trends and best practices to introduce meaningful design improvements that enhanced usability and overall product experience.
